

Uniwersytet Medyczny we Wrocławiu		Syllabus 2019/20												
Katedra Morfologii i Embriologii Człowieka ZAKŁAD ANATOMII PRAWIDŁOWEJ		Description of the course												
Module/Course Anatomia 6a, 50-368 Wrocław tel. 71 784 00 79, 784 13 30, faks: 71 784 00 79		Group of detailed education results												
CLINICAL ANATOMY		Group code C	Group name preclinical science											
Faculty	Medicine													
Major	medicine													
Specialties	Not applicable													
Level of studies	Uniform magister studies X* 1 <sup>st</sup> degree studies <input type="checkbox"/> 2 <sup>nd</sup> degree studies <input type="checkbox"/> 3 <sup>rd</sup> degree studies <input type="checkbox"/> postgraduate studies <input type="checkbox"/>													
Form of studies	X full-time <input type="checkbox"/> part-time													
Year of studies	II	Semester	<input type="checkbox"/> Winter X Summer											
Type of course	X obligatory <input type="checkbox"/> limited choice <input type="checkbox"/> free choice / elective													
Course	<input type="checkbox"/> major X basic													
Language of instruction	<input type="checkbox"/> Polish X English <input type="checkbox"/> other													
* mark <input type="checkbox"/> with an X														
Number of hours														
Form of education														
Unit teaching the course	Lectures (L)	Seminars (SE)	Auditorium classes (AC)	Major Classes – not clinical (MC)	Clinical Classes (CC)	Laboratory Classes (LC)	Classes in Simulated Conditions (CSC)	Practical Classes with Patient (PCP)	Specialist Classes – magister studies (SCM)	Foreign language Course (FLC)	Physical Education obligatory (PE)	Vocational Practice (VP)	Self-Study (Student's own work)	E-learning (EL)
Winter Semester														
Summer Semester														
Department of Human Morphology and Embryology Division of Anatomy				30										
TOTAL per year:														

Department of Human Morphology and Embryology Division of Anatomy			30										
Educational objectives (max. 6 items)													
<b>C1.</b> Teaching students the basis of application the knowledge of human body structure to the clinical practice													
<b>C2.</b> Teaching students to describe the location and relationship of the human body organs and systems on living individual.													
<b>C3.</b> Teaching students to differentiate between the normal and abnormal anatomical structures on the intravital images (USG, CT, MRI) in the basal degree.													
Education result matrix for module/course in relation to verification methods of the intended education result and the type of class													
Number of course education result	Number of major education result	Student who completes the module/course knows/is able to				Methods of verification of intended education results (forming and summarising)				Form of didactic class <i>**enter the abbreviation</i>			
W1	C.W1	The student knows and understands the english anatomical and basic clinical terminology.				Test				CSC			
W2	C.W2	The student knows the human body structure in chosen clinical aspects.				Test				CSC			
W3	C.W3	The student is able to describe particular anatomical structures and the location and relationship of the organs on a living individual				Test				CSC			
U1	C.U3	The student knows the anatomical principles of the patient's examination.				Demonstration of skills				CSC			
U2	C.U4	The student can differentiate between the normal and abnormal anatomical structures on the intravital images (USG, CT, MRI) in the basal degree				Demonstration of skills				CSC			
U3	C.U5	The student uses in written and spoken form the anatomical and basic clinical terminology.				Demonstration of skills				CSC			
** L - lecture; SE - seminar; AC – auditorium classes; MC – major classes (non-clinical); CC – clinical classes; LC – laboratory classes; SCM – specialist classes (magister studies); CSC – classes in simulated conditions; FLC – foreign language course; PCP practical classes with patient; PE – physical education (obligatory); VP – vocational practice; SS – self-study, EL – E-learning .													
Please mark on scale 1-5 how the above effects place your classes in the following categories: communication of knowledge, skills or forming attitudes: Knowledge: .2 Skills: 3													
Student's amount of work (balance of ECTS points)													
Student's workload (class participation, activity, preparation, etc.)										Student Workload (h)			
1. Contact hours:										30			
2. Student's own work (self-study):										15			

Total student's workload	45
ECTS points for module/course	1,5
Comments	
Content of classes (please enter topic words of specific classes divided into their didactic form and remember how it is translated to intended educational effects)	
Lectures not applicable	
Seminars not applicable	
Practical classes Is carried out by experienced clinicians during ten 3-hours meetings (including the credit) according the following plan:	
<ul style="list-style-type: none"> <li>• The thorax – part I ( heart, mediastinum, lungs, pleural cavity – clinical aspects)</li> <li>• The thorax – part II (the surface anatomy, the mammary gland)</li> <li>• The coronary circulation – clinical aspects.</li> <li>• The hernias – anatomical aspects.</li> <li>• Anatomical changes in common CNS illnesses.</li> <li>• The anatomical aspects of the most frequent surgical operations</li> <li>• The most common injuries of the locomotor system.</li> <li>• The surface and ultrasound anatomy of some abdominal organs</li> <li>• The anatomical principles of diagnostic tests (RTG, CT, MRI, puls test, blood pressure, ECG)</li> <li>• Repetition of the material, discussion, demonstration of skills, credit – test</li> </ul>	
Other not applicable	
Basic literature (list according to importance, no more than 3 items)	
<ol style="list-style-type: none"> <li>1. Moore K. L., Agur A. M. R.; Essential Clinical Anatomy; Lippincot Williams and Wilkins; latest edition; ISBN: 0781728304</li> <li>2. Any atlas of anatomy.</li> </ol>	
Additional literature and other materials (no more than 3 items)	
<ol style="list-style-type: none"> <li>1. Richard Drake; Gray's Anatomy for Students; 2005 Churchill Livingstone; ISBN 0443066124</li> </ol>	
Didactic resources requirements (e.g. laboratory, multimedia projector, other...)	
<ol style="list-style-type: none"> <li>1. Human corpses and natural anatomical specimens</li> <li>2. Artificial anatomical specimens</li> <li>3. Multimedial anatomical presentations</li> <li>4. Intravital diagnostic images of human body.</li> </ol>	
Preliminary conditions (minimum requirements to be met by the student before starting the module/course)	
<b>Completed Anatomy course on the 1<sup>st</sup> year</b>	
Conditions to receive credit for the	
<p><b>Attendance 100%. Making absences: participating in the appropriate thematic activities with another group (each topic is discussed within 3 weeks). In exceptional cases, self-preparation of an essay on a missed topic.</b></p> <p><b>Completion of the course: refer an independent presentation in the form of an essay on selected clinical issues in the anatomical context, or optionally - passing a final test (multiple choice) at a level of at least 66% of points.</b></p>	

<b>Grade:</b>	<b>Criteria</b> (only for courses/modules ending with an examination)
Very Good (5.0)	Level 91-100% points
Good Plus (4.5)	Level 86-90% points
Good (4.0)	Level 80-85% points
Satisfactory Plus (3.5)	Level 75-79% points
Satisfactory (3.0)	Level 66- 74% points
