Form of studies	X full-time <input type="checkbox"/> part-time													
Year of studies	V					Semester		Winter Summer X						
Type of course	obligatory X <input type="checkbox"/> limited choice <input type="checkbox"/> free choice / elective													
Course	Major X <input type="checkbox"/> basic													
Language of instruction	<input type="checkbox"/> Polish X English <input type="checkbox"/> other													
* mark <input type="checkbox"/> with an X														
Number of hours														
Form of education														
Unit teaching the course	Lectures (L)	Seminars (SE)	Auditorium classes (AC)	Major Classes – not clinical (MC)	Clinical Classes (CC)	Laboratory Classes (LC)	Classes in Simulated Conditions (CSC)	Practical Classes with Patient (PCP)	Specialist Classes – magister studies (SCM)	Foreign language Course (FLC)	Physical Education obligatory (PE)	Vocational Practice (VP)	Self-Study (Student's own work)	E-learning (EL)
Winter Semester														
Summer Semester														
Department of Psychiatry	18		8		34									
TOTAL per year:														

Department of Psychiatry	18	8	34									
Educational objectives (max. 6 items)												
<p>C1. The ability to establish an empathic contact with the patient.</p> <p>C2. The ability to interview patient and assess the patient's mental condition in order to be able to make decision for further detailed diagnosis and to assess the urgency of treatment.</p>												
Education result matrix for module/course in relation to verification methods of the intended education result and the type of class												
Number of course education result	Number of major education result	Student who completes the module/course knows/is able to	Methods of verification of intended education results (forming and summarising)	Form of didactic class <i>**enter the abbreviation</i>								
K 01	E.W15.	Student knows the basic concepts of the pathogenesis of mental disorders.	Oral answer	AC, CC, L								
K 02	E.W16.	Student knows the general psychiatric symptomatology and the principles of their classification.	Oral answer	AC, CC, L								
K 03	E.W17.	Student knows the symptoms, principles of diagnosis and treatments of common mental disorders.	Oral answer	AC, CC, L								
S 01	D.U.5	Student leads a conversation with an adult patient, child and family using techniques of active listening and expressing empathy, as well as talking with the patient about his life situation.	Observation	CC								
<p>** L - lecture; SE - seminar; AC – auditorium classes; MC – major classes (non-clinical); CC – clinical classes; LC – laboratory classes; SCM – specialist classes (magister studies); CSC – classes in simulated conditions; FLC – foreign language course; PCP practical classes with patient; PE – physical education (obligatory); VP – vocational practice; SS – self-study, EL – E-learning .</p>												
Please mark on scale 1-5 how the above effects place your classes in the following categories:												
communication of knowledge, skills or forming attitudes:												
Knowledge: 4												
Skills: 4												
Social competences: not applicable												
Student's amount of work (balance of ECTS points)												
Student's work load (class participation, activity, preparation, etc.)										Student Work load (h)		
1. Contact hours:										60		
2. Student's own work (self-study):										21		
Total student's workload										81		

ECTS points for module/course	2,5
Comments	
<p>Content of classes (please enter topic words of specific classes divided into their didactic form and remember how it is translated to intended educational effects)</p>	
<p>Lectures:</p> <ol style="list-style-type: none"> 1. Introduction to psychiatry. History of psychiatry (2 didactic hours). 2. Mental status examination and psychiatric interview (3 didactic hours). 3. Stress impact on the mental and physical health (2 didactic hours). 4. Organic mental disorders. (2 didactic hours). 5. Alcohol and other psychoactive substances dependence- diagnosis and therapy (2 didactic hours). 6. Mood disorders (2 didactic hours). 7. Anxiety disorders (2 didactic hours). 8. Emergency psychiatry (3 didactic hours). 	
<p>Seminars N/A</p> <ol style="list-style-type: none"> 1. 	
<p>Practical classes:</p> <ol style="list-style-type: none"> 1. Symptomatology of mental disorders. Using questionnaires and scales to assess patient's mental state. Mental status examination and psychiatric interview. Criteria of normality and psychiatric abnormality. Basic concepts of psychiatric diagnosis (12 didactic hours). 2. Mental status examination and psychiatric interview. Experience of encounter with a mentally ill person. Classification of mental disorders based on case study. <p>Auditory classes:</p> <ol style="list-style-type: none"> 1. Communicating and relationship with patient (2 didactic hours). 2. Mental status examination and psychiatric interview (2 didactic hours). 3. Basic psychopathology (2 didactic hours.) 4. Classification of mental disorders (2 didactic hours). 	
<p>Basic literature (list according to importance, no more than 3 items):</p> <ol style="list-style-type: none"> 1. Kaplan and Sadock's Concise Textbook of Clinical Psychiatry, Publisher: Lippincott Williams & Wilkins; 4th Edition (2017) 2. Puri B., Treasaden I. Textbook of psychiatry, Publisher: Elsevier; 3rd Edition (2011) 3. Case Files Psychiatry, Publisher: McGraw-Hill Medical; 5th Edition (20017) <p>Additional literature and other materials (no more than 3 items):</p> <ol style="list-style-type: none"> 1. Psychiatry PreTest Self-Assessment & Review, (PreTest Clinical Medicine) Publisher: McGraw-Hill Medical; 14th Edition (2016) 2. Kaplan and Sadock's Study Guide and Self-Examination Review in Psychiatry, Publisher: Lippincott Williams & Wilkins; 9th Edition (2011) 	

3. Shorter Oxford Textbook of Psychiatry, Publisher: Oxford University Press; 7th Edition (2017)

Didactic resources requirements (e.g. laboratory, multimedia projector, other...)
multimedia projector

Preliminary conditions (minimum requirements to be met by the student before starting the module/course)

Physical examination skills

Conditions to receive credit for the course (specify the form, criteria and conditions of receiving credit for classes included in the module/course, admission terms to final theoretical or practical examination, its form and requirements to be met by the student to pass it and criteria for specific grades).

Each absence must be made up, including rector's days or dean's hours by joining to a other students group. In case it is not possible to join to other student group, student should prepare a presentation or write a essay on the topic chosen by teacher.

Student receives credit after completion of the psychiatry course. The credit (with grade) is received on the basis of the knowledge presented by student during the course (oral colloquium).

Oral colloquium includes topics of symptomatology of mental disorders, psychiatric examination and classification of mental disorders

It is the precondition for starting the psychiatry course at the VI th year.

Grade:	Criteria for course
Very Good (5.0)	Excellent knowledge of general psychiatric symptomatology and skills to assess the patient's mental condition and interpret of psychiatric symptomatology.
Good Plus (4.5)	Knowledge and skills as above, not very important shortages .
Good (4.0)	Good knowledge of general psychiatric symptomatology and skills to assess the patient's mental condition; correct interpretation of psychiatric symptomatology
Satisfactory Plus (3.5)	Basic knowledge of general psychiatric symptomatology and fair skills to assess the patient's mental condition.
Satisfactory (3.0)	Very basic knowledge of general psychiatric symptomatology and sufficient skills to assess the patient's mental condition; interpretation of psychiatric symptomatology without serious mistakes

Grade:	Criteria for exam (if applicable) NA
Very Good (5.0)	
Good Plus (4.5)	
Good (4.0)	
Satisfactory Plus (3.5)	

Satisfactory (3.0)
