

Syllabus, academic year 2019/2020															
Description of the course															
Course Name:		Practical Clinical Teaching – chosen specialty: RADIOLOGY					Group of detailed education results								
							Group code (E or F): E+ F		Group name: Clinical Sciences – Non-surgical Clinical Sciences surgical						
Faculty		Medicine													
Major		Medicine													
Specialties		not applicable													
Level of studies		X Uniform magister studies													
Form of studies		X full-time X part-time													
Year of studies:		VI				Semester:		X summer (april/may)							
Type of course		X obligatory													
Course		X major													
Language of instruction		<input type="checkbox"/> Polish <input checked="" type="checkbox"/> English <input type="checkbox"/> other													
* mark <input type="checkbox"/> with an X															
Number of hours															
Form of education															
Unit teaching the course:		Lectures (L)	Seminars (SE)	Auditorium Classes (AC)	Major classes - not clinical (MC)	Clinical Classes (CC)	Laboratory Classes (LC)	Classes in Simulated Conditions (CSC)	Practical Classes with Patient (PCP)	Specialist Classes - master studies (SCM)	Foreign language Course (FLC)	Physical Education obligatory (PE)	Vocational Practice (VP)	Self-Study (Student's own work) (SS)	E-learning (EL)
Winter semester:		Not applicable													
Summer semester:		Not applicable													
DEPARTMENT OF RADIOLOGY		180													
Total per year:		180													
Educational objectives: (max. 6 items)															
C1. Gaining the practical knowledge on workflow in radiological laboratories (X-ray, ultrasound, CT, MRI and endovascular departments)															
C2. Gaining the practical knowledge on everyday work of radiologists in different radiological departments (X-ray, ultrasound, CT, MRI and endovascular departments)															
C3. Gaining the practical knowledge on strategy of diagnostic imaging in different diseases and health conditions.															
C4. Gaining the ability to evaluate and interpret basic imaging studies.															
Education results matrix for course in relation to verification methods of the intended education result and the type of class :															
Number of course education result	Number of major education (E or F group)	Student who completes the course knows/ is able to Please enter from 5 to max. 7 education results – examples of verbs defining the education result in the scope of student's knowledge: uses, performs, resolves					Methods of verification of intended education results (forming and summarising)					Form of didactic class ** enter the abbreviation			
S 01	E.U.12	Is able to perform differential diagnosis of the most common diseases of adults and children (on the basis of the results of X-ray, ultrasound and CT studies).					SHOW					CC			
S 02	E.U.14	Is able to recognize life threatening conditions (in emergency X-ray, ultrasound and CT studies)					SHOW					CC			

S 03	E.U.16	Is able to plan diagnostic process (knows the strategy of diagnostic imaging in the most common pathologies)	SHOW	CC
S 04	F.U.7	Evaluates and interpretes the most common bone fractures on radiograms	SHOW	CC
S 05	E.U.5	Is able to identify normal and pathological structures and organs on imaging studies using X-ray, CT and ultrasound	SHOW	CC

\*\* L - lecture; SE - seminar; AC - audytorium classes; MC - major classes (non-clinical); CC - clinical classes; LC - laboratory classes; SCM - specialist classes (master studies); CSC - classes in simulated conditions; FLC - foreign language course; PCP - practical classes with patient; PE - physical education (obligatory); VP- vocational practice; SS - self-study; EL- E-learning.

Please mark on scale 1-5 how the above effects place your classes in the following categories: communication of knowledge, skills or forming attitudes:

Skills: 5

**Student's amount of work (balance of ECTS points):**

Student's workload (class participation, activity, preparation, etc.)	Student Workload (h)
1. Contact hours:	180
2. Student's own work (self-study):	
Total student's workload	
<b>ECTS points for course</b>	<b>10,0</b>
Comments	

**Content of classes** (please enter topic words of specific classes divided into their didactic form and remember how it is translated to intended educational effects))

**Lectures – not applicable**

**Seminars – not applicable**

**Classes**

**Panel of clinical classes in X-ray imaging – 60 hrs**

1. Diagnostic imaging of chest pathologies – part 1
2. Diagnostic imaging of chest pathologies – part 2
3. Diagnostic imaging of pathologies of the abdomen
4. Diagnostic imaging of pathologies of the musculo-skeletal system – part 1
5. Diagnostic imaging of pathologies of the musculo-skeletal system – part 2
6. Diagnostic imaging of pathologies of the urinary tract
7. Emergency chest radiogram
8. Emergency bones and joints radiograms – part 1
9. Emergency bones and joints radiograms – part 2
10. Emergency radiograms of the abdomen

**Panel of clinical classes in ultrasound – 30 hrs**

11. Ultrasound of the abdomen and pelvis – part 1
12. Ultrasound of the abdomen and pelvis – part 2
13. Emergency ultrasound of the abdomen and pelvis – part 1
14. Emergency ultrasound examinations of other parts of the body
15. FAST ultrasound in emergency settings.

**Panel of clinical classes in CT imaging – 60 hrs**

16. Emergency CT of the head
17. Emergency CT of the chest
18. Emergency CT of the abdomen and pelvis
19. Emergency CT angiography
20. Emergency CT of the whole body
21. CT of the brain
22. CT of the head and neck
23. CT of the chest
24. CT imaging in oncology
25. CT angiographies of the arterial system

**Panel of clinical classes in MR imaging – 18 hrs**

**26. MRI of the brain**

**27. MRI of the spine**

**28. MRI of other organs and parts of the body**

**Panel of clinical classes in interventional radiology – 12 hrs**

**29. Neurointerventional procedures**

**30. Other procedures of interventional radiology**

**Other - etc....**

**Basic literature:** (list according to importance, no more than 3 items)

1. William Herring. Learning radiology – recognizing the basics – Elsevier 2012 (second edition)

**Additional literature and other materials:** (no more than 3 items)

Not applicable

**Didactic resources requirements:** (e.g. laboratory, multimedia projektor, other...)

Not applicable

**Preliminary conditions:** (minimum requirements to be met by the student before starting the course)

Not applicable

Conditions to receive credit for the course (specify the form, criteria and conditions of receiving credit for classes included in the module/course, admission terms to final theoretical or practical examination, its form and requirements to be met by the student to pass it and criteria for specific grades).

Each student is obliged to make up all missed classes by joining to a different student group. If this is not possible he or she should prepare a PowerPoint presentation on the topic chosen by his/her teacher. The same works for all rector's days or dean's hours

<b>Grade:</b>	<b>Criteria for course</b>
Very Good (5.0)	min 95% of positive answers in the oral credit
Good Plus (4.5)	min 85% of positive answers in the oral credit
Good (4.0)	min. 75% of positive answers in the oral credit
Satisfactory Plus (3.5)	min.65% of positive answers in the oral credit
Satisfactory (3.0)	min. 55% of positive answers in the oral credit

<b>Grade:</b>	<b>Criteria: (only for courses/module ending with an examination)</b>
Very good (5,0)	
Above good (4,5)	
Good (4,0)	
Sufficiently good (3,5)	
Sufficient (3,0)	

List of persons conducting specific classes	Degree/scientific or professional title	Discipline	Performer profession	Form of classes
ANNA ZIMNY	DR HAB. N. MED.	RADIOLOGIST	academic teacher	CC
JOANNA BLADOWSKA	PROF. NADZW.	RADIOLOGIST	academic teacher	CC
MACIEJ GUZIŃSKI	DR HAB. N. MED.	RADIOLOGIST	academic teacher	CC
