Educational objectives (max. 6 items)
 C1. Acquisition of knowledge and skills in the diagnosis of life-threatening conditions, the principles of using intensive therapy, suspicion and diagnosis of brain death, guidelines for cardiopulmonary resuscitation.
 C.2 - teaching the principles of patient preparation for surgery.
 C.3 - teaching the basics of general and regional anesthesia.
 C.4 - teaching the rules of conducting pain therapy in various clinical situations.
 C.5 - solving ethical dilemmas in the care of a critically ill.
 C. 6- acquisition of skills in: performing basic and advanced resuscitation procedures with the use of an automatic external defibrillator, monitoring the patient in the perioperative period, assessing the unconscious state in accordance with the applicable scales, performing procedures and medical procedures, such as: monitoring vital signs at cardiomonitor assistance, pulse oximetry, oxygen therapy, assisted and replacement ventilation, introduction of the oropharyngeal tube, peripheral vein cannulation.

Education result matrix for module/course in relation to verification methods of the intended education result and the type of class

| Number of course education result | Number of major education result | Student who completes the module/course knows/is able to | Methods of verification of intended education results (forming and summarising) | Form of didactic class <i>**enter the abbreviation</i> |
|-----------------------------------|----------------------------------|---|--|---|
| K 01 | FW3 | Knows the rudiments of qualification, performance and side effects of basic surgical and invasive diagnostic procedures | <u>Summarising methods:</u> Evaluation of practical skills, Exam: final test <u>Forming methods:</u> Assessment of preparation for classes | L, CC |
| K 02 | FW4 | Knows the principles of perioperative safety, preparing patient to general/regional anaesthesia or conscious sedation | <u>Summarising methods:</u> Evaluation of practical skills, Exam: final test <u>Forming methods:</u> Assessment of preparation for classes | L, CC |
| K 03 | FW5 | Knows the basic principles of perioperative fluids treatment, postoperative vital functions monitoring and analgesia adult and paediatric | <u>Summarising methods:</u> Evaluation of practical skills, Exam: final test <u>Forming methods:</u> Assessment of preparation for classes | L, CC |
| K 04 | FW6 | Knows the practical application of intensive therapy principles | <u>Summarising methods:</u> Evaluation of practical skills, Exam: final test <u>Forming methods:</u> Assessment of preparation for classes | L, CC |
| K 05 | FW7 | Knows the present ERC resuscitation guidelines | <u>Summarising methods:</u> Evaluation of practical | L, CC |

| | | | | |
|------|-------|---|--|-------|
| | | adults and paediatric | skills, Exam: final test <u>Forming methods:</u> Assessment of preparation for classes | |
| K 06 | FW 15 | knows the rules of issuing the suspicion and diagnosis of brain death | <u>Summarising methods:</u> Evaluation of practical skills, Exam: final test <u>Forming methods:</u> Assessment of preparation for classes | L, CC |
| S 01 | F. U5 | performs peripheral vein access | <u>Summarising methods:</u> Evaluation of practical skills, Exam: final test <u>Forming methods:</u> Assessment of preparation for classes | L, CC |
| S 02 | F. U9 | supplies external bleeding | <u>Summarising methods:</u> Evaluation of practical skills, Exam: final test <u>Forming methods:</u> Assessment of preparation for classes | L, CC |
| S 03 | F.U10 | Performs CPR with defibrillator application and other first medical aid activities | <u>Summarising methods:</u> Evaluation of practical skills, Exam: final test <u>Forming methods:</u> Assessment of preparation for classes | L, CC |
| S 04 | F.U11 | Performs advanced CPR activities according to present ERC Guidelines | <u>Summarising methods:</u> Evaluation of practical skills, Exam: final test <u>Forming methods:</u> Assessment of preparation for classes | L, CC |
| S 05 | F.U12 | Applies monitoring of vital functions in postoperative period | <u>Summarising methods:</u> Evaluation of practical skills, Exam: final test <u>Forming methods:</u> Assessment of preparation for classes | L, CC |
| S 06 | F.U20 | Assess the unconscious patient using the international scoring systems | <u>Summarising methods:</u> Evaluation of practical skills, Exam: final test <u>Forming methods:</u> Assessment of preparation for classes | L, CC |

| | | | | |
|--|--------|---|--|-------|
| S 07 | F. U21 | recognizes the symptoms of increasing intracranial pressure | <u>Summarising methods:</u> Evaluation of practical skills, Exam: final test <u>Forming methods:</u> Assessment of preparation for classes | L, CC |
| <p>** L - lecture; SE - seminar; AC – auditorium classes; MC – major classes (non-clinical); CC – clinical classes; LC – laboratory classes; SCM – specialist classes (magister studies); CSC – classes in simulated conditions; FLC – foreign language course; PCP practical classes with patient; PE – physical education (obligatory); VP – vocational practice; SS – self-study, EL – E-learning .</p> | | | | |
| <p>Please mark on scale 1-5 how the above effects place your classes in the following categories: communication of knowledge, skills or forming attitudes: Knowledge: 4 Skills: 5</p> | | | | |
| Student's amount of work (balance of ECTS points) | | | | |
| Student's workload (class participation, activity, preparation, etc.) | | | Student Workload (h) | |
| 1. Contact hours: | | | 65 | |
| 2. Student's own work (self-study): | | | 100,5 | |
| Total student's workload | | | 165,5 | |
| ECTS points for module/course | | | 7 | |
| Comments | | | - | |
| Content of classes (please enter topic words of specific classes divided into their didactic form and remember how it is translated to intended educational effects) | | | | |
| <p>Lectures:</p> <ol style="list-style-type: none"> 1. Death of the brain. 2. Acute and chronic pain. 3. Shock. 4. Sepsis. 5. Basic of general anesthesia. 6. Acute respiratory failure- ventilator treatment. 7. Hemodynamic monitoring. 8. Extracorporeal therapy- organ function support. 9. Acute bleeding –diagnosis and treatment. 10. Basics of intensive pediatric therapy. | | | | |
| Seminars: not applicable. | | | | |
| <p>Practical classes:</p> <p>Exercise 1. Organizational class. Monitoring and documentation in the intensive care unit. Treatment of unconscious patients. Acid-alkaline and water-electrolyte balance with interpretation of tests.</p> <p>Exercise 2. Treatment of respiratory failure, principles of oxygen therapy. Airway cannulation - equipment demonstration</p> <p>Exercise 3.</p> | | | | |

Treatment of acute circulatory failure. Electrocadiotherapy: defibrillation, cardioversion, cardiac electric stimulation.

Exercise 4.

Intravenous fluid delivery: central venous puncture - equipment demonstration. Principles of pressure measurement by invasive method. Haemodynamic monitoring.

Exercise 5.

The rules of artificial nutrition. Principles of renal replacement therapy. Diagnosis and treatment of infections in the intensive care unit.

Exercise 6.

Basics of intensive pediatric therapy. The specifics of pediatric anesthesia.

Exercise 7.

Preparation of the patient for surgery in adults. Basic methods of general anesthesia. Regional anesthesia. Monitoring of the patient during surgery. Specialized anesthesia.

Exercise 8.

Sudden cardiac arrest in adults and children. Postoperative analgesia in adults and children. Laboratory methods for multi-organ failure assessment.

Exercise 9.

Patient in ITU-exercises in simulated conditions. Exercises based on the material realized.

Exercise 10.

Anesthesia of the patient for surgery - exercises in simulated conditions. Exercises based on the material realized.

Passing classes.

Other: not applicable.

Basic literature (list according to importance, no more than 3 items)

1. Paul Marino, The Little ICU Book 2 E, Lippincott Williams&Wilkins, 2016.
2. Textbook of Critical Care Fink MP, Abraham E., Vincent JL., Kochanek PM Philadelphia 2011, VII-th Edition Elsevier
3. Fundamental of Anaesthesia, T. Smith, C. Pinnock, et al, Feb. 2011

Additional literature and other materials (no more than 3 items)

1. 2015 ERC Guidelines for Adult Basic Life Support
2. 2015 ERC Guidelines for Pediatric Basic Life Support

Didactic resources requirements (e.g. laboratory, multimedia projector, other...)

Multimedia projector

Simulation training system

Preliminary conditions (minimum requirements to be met by the student before starting the module/course)

Basic knowledge in the field of anatomy, pathophysiology and internal diseases

Conditions to receive credit for the course (specify the form, criteria and conditions of receiving credit for

classes included in the module/course, admission terms to final theoretical or practical examination, its form and requirements to be met by the student to pass it and criteria for specific grades).

The condition to receive credit for the course is to attend all classes in accordance with the Study Regulations. In the case of an excused absence - the student is obligated to make up the classes after prior agreement with the teaching adjunct. Each absence must be made up, including rector days and dean's hours - the way and form of doing the classes after prior arrangement with a teaching adjunct. Admission to the exam-positive passing of practical skills.

Final exam is written test. It consists of 60 questions and only one answer is correct. To pass the exam the student must have a minimum of 60% of correct answers. The criteria given in % may only be reduced after analyzing the degree of difficulty of the test.

| Grade: | Criteria for course |
|-------------------------|---|
| Very Good (5.0) | has knowledge of each of the content of education at the level of 90% -100% |
| Good Plus (4.5) | has knowledge of each of the content of education at the level of 84%-89% |
| Good (4.0) | has knowledge of each of the content of education at the level of 77%-83% |
| Satisfactory Plus (3.5) | has knowledge of each of the content of education at the level of 70%-76% |
| Satisfactory (3.0) | has knowledge of each of the content of education at the level of 60%-69% |

| Grade: | Criteria for exam (if applicable) |
|-------------------------|-----------------------------------|
| Very Good (5.0) | 90-100% of correct answers |
| Good Plus (4.5) | 84-89% of correct answers |
| Good (4.0) | 77-83% of correct answers |
| Satisfactory Plus (3.5) | 70-76% of correct answers |
| Satisfactory (3.0) | 60-69% of correct answers |
