

TOTAL per year:												
				30								
Educational objectives (max. 6 items)												
<b>C1. Knowledge of otherness of childhood.</b>												
<b>C2. Knowledge of congenital defects, which should be treated surgical.</b>												
<b>C3. Knowledge of acute diseases, which should be treated surgical.</b>												
<b>C4. Knowledge of malign tumours in childhood.</b>												
<b>C5. Knowledge of traumas and infections in children, which should be treated surgical.</b>												
<b>C6. Building of ethical attitude related to the doctor.</b>												
Education result matrix for module/course in relation to verification methods of the intended education result and the type of class												
Number of course education result	Number of major education result	Student who completes the module/course knows/is able to	Methods of verification of intended education results (forming and summarising)	Form of didactic class <i>**enter the abbreviation</i>								
W 01	E.W3	Knows and understands reasons, symptoms, diagnostic rules in most diseases in children: a. congenital defects of respiratory and nervous system b. benign and malignant tumors c. acute and chronic abdominal pain, vomiting, constipations, bleedings and other diseases and defects of alimentary system urinary tract infections and congenital defects of urinary system, bladder dysfunction, vesico-ureteral reflux, urolithiasis	Verbal test	CC								
W02	F.W1	Knows and understands reasons, symptoms, diagnostic rules in most diseases in children, which should be treated surgically. Knows otherness of childhood in these diseases.	Verbal test	CC								
W03	F.W 02	Knows selected topics from pediatric surgery, like traumatology, defects and acquired diseases, which should be treated surgically.	Verbal test	CC								
W04	F.W 03	Knows indications and most important complications of basic operations in pediatric surgery.	Verbal test	CC								
W05	F.W13	Knows and understands reasons, symptoms and diagnostic rules in case of: a. brain edema b. traumatic brain injuries	Verbal test Verbal test	CC								
U01	F.U02	Is able to carry a doctor's interview with a child and his parents.	Verbal test	CC								
U02	F.U04	Is able to examine a child in every age.	Verbal test	CC								
U03	F.U07	Is able to estimate the general state of a child, state of consciousness and awareness.	Verbal test	CC								
U04	F.U12	Is able to differentiate various, most common surgical diseases in children.	Verbal test Verbal test	CC								
U05	F.U16	Is able to plan diagnostic, therapeutic and prophylactic procedures.	Verbal test	CC								
U06	F.U02	Uses most common surgical tools.	Verbal test	CC								

<b>U07</b>	F.U03	Knows the rules of asepsis and antisepsis.	Verbal test	CC
<b>U08</b>	F.U04	Can do and change a sterile surgical dressing.	Verbal test Verbal test	CC
<b>U09</b>	F.U06	Is able to examine lymph nodes, thyroid gland and abdomen in case of "acute abdomen".	Verbal test	CC
<b>U10</b>	F.U07	Can identify most common fractures in x-ray.	Verbal test	CC
<b>U11</b>	F.U21	Can estimate the state of an unconscious child according to international scales.	Verbal test	CC
<b>U12</b>	F.U22	Is able to identify symptoms of intracranial hypertension	Verbal test	CC

\*\* L - lecture; SE - seminar; AC – auditorium classes; MC – major classes (non-clinical); CC – clinical classes; LC – laboratory classes; SCM – specialist classes (magister studies); CSC – classes in simulated conditions; FLC – foreign language course; PCP practical classes with patient; PE – physical education (obligatory); VP – vocational practice; SS – self-study, EL – E-learning .

Please mark on scale 1-5 how the above effects place your classes in the following categories:  
communication of knowledge, skills or forming attitudes:

Knowledge: 4

Skills: 4

Social competences: 3

**Student's amount of work (balance of ECTS points)**

Student's workload (class participation, activity, preparation, etc.)	Student Workload (h)
1. Contact hours:	30
2. Student's own work (self-study):	15
Total student's workload	45
ECTS points for module/course	4,5
Comments	

**Content of classes** (please enter topic words of specific classes divided into their didactic form and remember how it is translated to intended educational effects)

**Lectures**

1. Congenital defects of alimentary system.
2. Bleedings in alimentary system and „acute abdomen”.
3. Congenital defects of respiratory system, diseases of chest.
4. Congenital defects of nervous system.
5. Congenital defects of urinary system, neurogenic bladder, non-neurogenic bladder dysfunction.
6. Burns injuries in children and shock.
7. Malign tumours in childhood.
8. Injuries in children.

**Seminars**

- 1.
- 2.
- 3.

**Practical classes**

- 1.
- 2.

3.	
Other 1. 2. 3. <i>etc. ...</i>	
Basic literature (list according to importance, no more than 3 items) 1. Ashcraft's Pediatric Surgery, V Edition, Elsevier, 2010 2. Campbell Welsh Urology, IV Edition, Saunders 2007 3. Clinical Pediatric Urology, V Edition, Informa Healthcare 2007 Additional literature and other materials (no more than 3 items) 1. 2. 3.	
Didactic resources requirements (e.g. laboratory, multimedia projector, other...) multimedia projector, computer	
Preliminary conditions (minimum requirements to be met by the student before starting the module/course)	
Conditions to receive credit for the course (specify the form and conditions of receiving credit for classes included in the module/course, admission terms to final theoretical or practical examination, its form and requirements to be met by the student to pass it and criteria for specific grades)  Presence in classes, verbal test	
<b>Grade:</b>	<b>Criteria</b> (only for courses/modules ending with an examination)
Very Good (5.0)	
Good Plus (4.5)	
Good (4.0)	
Satisfactory Plus (3.5)	

Satisfactory (3.0)
