

Updated procedure

for dealing with Sars-Cov-2 infection and suspicion of SARS-CoV-2 infection for students and employees of Wroclaw Medical University

Every case of: (1) SARS-CoV-2 infection, (2) contact with infected person OR (3) suspected infection among students and employees of the WMU (both vaccinated and unvaccinated) **MUST** be reported by the appropriate form!

Important information:

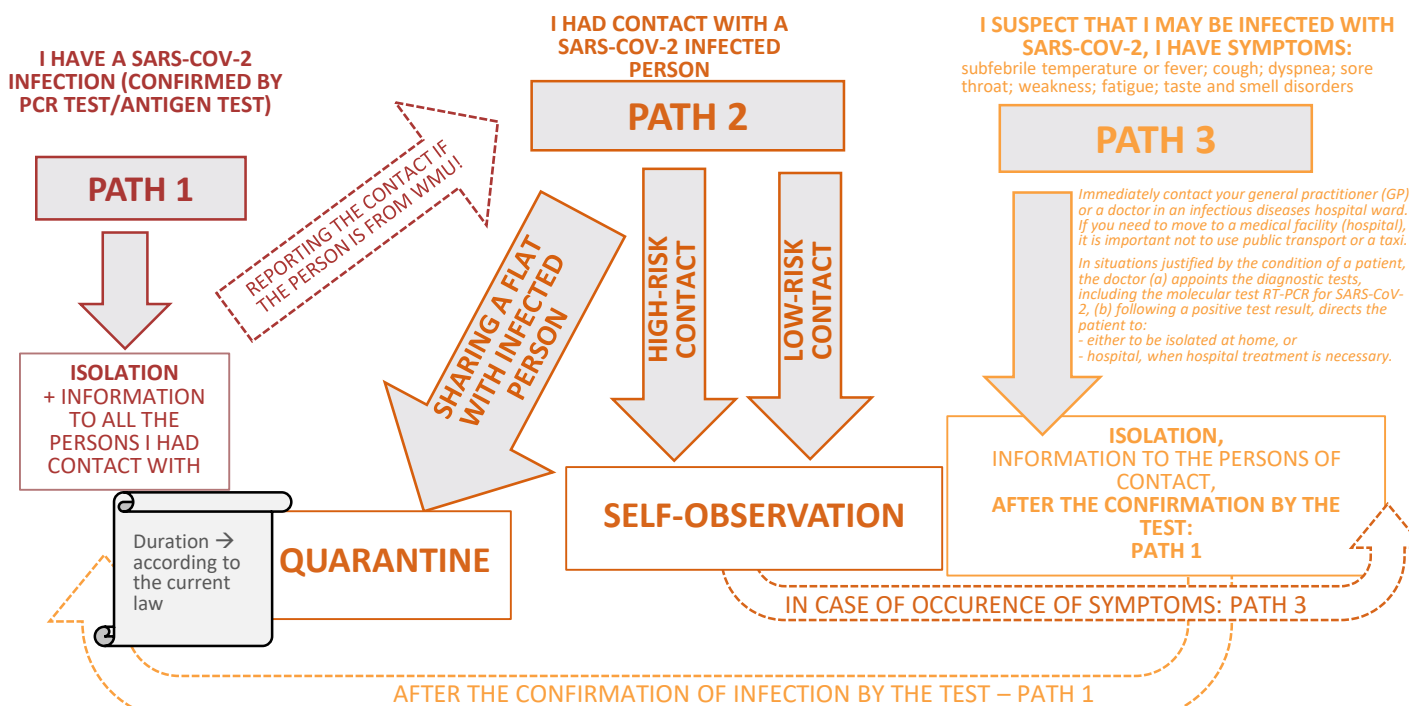

ISOLATION: Isolation of a person infected with SARS-CoV-2 to prevent transmission of the virus to others; **The duration of the isolation is determined by regulations of the Ministry of Health. The decision to end isolation is made by the GP.** You absolutely cannot participate in face-to-face classes during isolation. Classes must be made up upon agreement with the lecturer.

QUARANTINE: Seclusion of a healthy person due to **exposure/contact with infected person**; The exact rules for the implementation of quarantine and its duration are determined by regulations of the Ministry of Health; During quarantine, you may participate in study/remote e-learning. During the quarantine period you absolutely cannot participate in face-to-face classes. Classes must be made up upon agreement with the lecturer.

SELF-OBSERVATION: Monitoring of your health status and symptoms, rigorous use of personal protective equipment, social distance, and limiting activity to what is necessary. **You may participate in contact classes.**

HIGH-RISK CONTACT: Sharing a flat with person with COVID-19; Direct physical contact with person with COVID (e.g. shaking hands); Direct contact without protection with secretion of person with COVID (e.g. touching used handkerchief, exposure to cough); Contact longer than 15 minutes in material face masks on, without preserving distance; Every contact without any protection (masks) with person with COVID indoors or in vehicles, regardless of duration or distance.; Contact without masks and without distance outdoors.

LOW-RISK CONTACT: contact in **medical masks** regardless of the duration, while maintaining social distance OR contact without masks outdoors while maintaining social distance

AFTER COMPLETING THE FORM, APPROPRIATE GUIDELINES REGARDING FURTHER STEPS (ISOLATION, QUARANTINE) WILL BE SENT BY E-MAIL;

If administrative decisions (Sanitary Inspectorate/GP) differ from the decision of the University Crisis Management Team, you should immediately report about the decision to the Faculty's Coordinator.

FACULTY'S COORDINATORS:

- constantly monitor the reports of infections and contacts with infected persons, prepare reports and statistics;
- inform the Year Supervisors and the Dean's Office about the persons who have been recommended for isolation and/or quarantine.
- respond to questions from students and employees;
